

LUKAS MANUFACTURING
& TRADING COMPANY

ABOUT US

Lukas Manufacturing and Trading Company is a modern and reliable enterprise producing and selling confectionery products which was established on November 6, 1999.

Starting as a confectionery products manufacturer, the company has worked its way up from a small business producing shortbread cookies (only 10 kg of products per shift in a rented bakery with an area of 23 m²) to a powerful manufacturing company having up-to-date material and technical resources.

Lukas Company owns four manufacturing sites with a total area of around 17 ha, modern storage facilities with automatic temperature monitoring system, a network of Lukas Sweets.

Currently, the enterprise's manufacturing capacity is 2,500 tonnes of products per month (around 100 tonnes per day). Today Lukas is reckoned among the industry's leading enterprises. The company owns exclusive high-quality equipment made by the world-famed company RONDO (Switzerland) and Ukrainian leading manufacturers. The range of its products includes more than 100 items comprising puff pastry cookies, croissants, sweets, biscuit and cream products.

The company employs 1,048 people.

Presently, Lukas Manufacturing and Trading Private Enterprise has been selling own products in Ukraine and in 54 countries. About 100 trademarks and patents under which Lukas products are sold have received legal protection in Ukraine and abroad.

Lukas trademark products 'high quality and delicious taste are well known by consumers as the Company always abides by the established standards, thoroughly controls not only taste but also safety of the products. Lukas Company follows legal and international requirements on foodstuff safety. In 2018, the company successfully underwent certification audit performed by an Italian auditing firm and received the FSSC 22000 requirements compliance certificate which is based on the principle of foodstuff safety risks analysis and setting of critical control points which allows ensuring control of the products throughout all stages of production.

Well-developed infrastructure, up-to-date technologies, professional confectionery equipment made by world-known companies, company's own developments and its employees, high skills are components of Lukas TM success.

The history of the brand began in 30s of the twentieth century. While the whole world was changing, the great future of the confectionery company Lukas was born. It is an expert of sweet feelings, who is known and loved today in more than 50 countries.

This sweet legend is built around family values and the inspiration of generations, around the whole Lukatsky dynasty. In the sweet city of Kremenchug, where the confectionery business occupied a special place, each member of the family spent his childhood with stories about the delicacies of the last century.

It was said that at that time Borys Ovsyiovych Lukatsky headed the powerful enterprise "Chervonyi Kharchevyk" in his hometown, which produced almost everything: from bread to sweets. But sweets occupied an important place in the hearts of the townspeople. It was rumored that grandfather had a book where he wrote down recipes for unique delicacies.

But 1941... During the occupation almost 97% of the famous Kremenchuk was destroyed, many archival documents were lost. Unfortunately, only a few mentions of the company were saved, but in the early XX century "Chervonyi Kharchevyk" played an important role in the city's industry.

In the 1990s, when the whole industry stood still, the question arose as to what to do next. Many people went in search of a better life, did not believe in their strength and gave up. But inspired by the story of his grandfather, Alexander Semenovych Lukatsky rolled up his sleeves and decided to continue the confectionery dynasty.

LUKAS STORY

One winter evening, at the crossroads of the XX-XXI century, looking at old photos, Oleksandr Semenovych told his adult son interesting stories, remembering relatives and events of the past. And here, having come across an old photo already the great-grandfather, the story of artel "Chervonyi Kharchevyk" went. It was mentioned that there was a photo of the enterprise itself, but it was in the attic.

He had to climb. Examining the old books, he looked at the red velvet notebook, which showed the enclosed paper. "Oh, really a photo! And what is this? " Looking closer, he recognized the familiar handwriting and names of the cookies with the shabby recipes below. This discovery became fundamental for the future of Lukas.

There was no doubt what to devote his life to. Definitely - sweets. In 1999 a new history of the confectionery dynasty was born. Together with their son, Vitaliy Lukatsky, they directed all their efforts, inspiration and ideas to create a new, more powerful enterprise. The quality remained the same, as did the traditions of generations.

It was not possible all at once. In the beginning there was the first confectionery shop in the city, then a small shop with a capacity of 100 kg per shift. So gradually, step by step, a large confectionery production was created.

There are difficulties in any great story. Rises are inspiring - falls are hardened. But it is the events of the past that make things around them the way they are.

Due to this, today Lukas Manufacturing & Trading Company is a state-of-the-art, large-scale enterprise with a capacity of 2.5 thousand tons of sweets per month.

Time does not stand still. The artel was known outside Kremenchuk, and Lukas is known outside the country!

And now, for the fifth generation, the sweet business is becoming dynastic, continuing to write its history to this day!

TM LUKAS is an expert of sweet feelings in more than 50 countries of the world!
